On June 6, 2012 Ranger Ahna Wilson, Acting Cultural Resource Program Manager, Chesapeake and Ohio National Historical Park, Hagerstown, MD gave a lecture to the Montgomery County Historical Society. After the lecture, Lilly Lievsay showed a journal that her ancestor, John D. W. Moore, had written to keep track of the days worked by his crew to finish the canal and get it open. The work was done in the last fifty miles of canal, specifically Aqueduct No. 10 (Town Creek Aqueduct) and the area around Locks 62 to 66. It is to be remembered that these men were not Canal Company employees. Their exact status, i.e. Hunter, Harris & Co. employees working for John D. W. Moore, Project Superintendent, or local residents who came to work for John D. W. Moore as he needed men, remains unknown. Certainly the names on the several monthly records were repetitious from October 1, 1849 through June 15, 1850. Then there was an unexplained gap in the record-keeping. When the journal picks up again on August 12, 1850 the names are new and the location of the work site was not listed. Additional research is necessary and input from readers will be welcome.

Ranger Wilson informed me by e-mail of the availability of the journal; I contacted Ms. Lievsay, subsequently visited her at her home and she kindly authorized this transcription. We hope it is interesting reading.

Readers wishing a paper copy of this report should set their printers to legal sized paper, landscape mode, borderless.
